CPD4ALL**

CPD4ALL is the centre of excellence for our well-established Postgraduate Pharmacy Department at Keele University and also hosts our new **Learning through Practice (LtP) Hub**.

Here at **CPD4ALL** we have over 20 years of experience and reputation in delivering high quality and externally acclaimed postgraduate courses to pharmacists, prescribers and other healthcare professionals who have a role in the management and optimisation of prescribing and medicines use.

The **LtP Hub** is the new focus for our innovations and developments in work based learning and professional development that starts with undergraduate MPharm pharmacy students, through pre-registration training and continues to the highest levels of attainment in their professional careers. The **LtP Hub** is also a home for our **LtP Partners** to share their innovations in service developments, professional developments, and research & evaluation.
