

Vacation Placements in West Midlands – Summer 2019

Here is a list of contacts and some details of placements available in the West Midlands. Not all trusts have confirmed details – these trusts are marked “No details given by trust”. These trusts may still offer summer placements. Students wishing to gain placements at this trust should enquiry via the trust’s education and training pharmacist.

Apply to placements as soon as possible as applications may close early if trusts become overwhelmed with applications.

If you accept a placement offer you should honour it and not let the hospital down at last minute.
